

BECOME A DOODLE HERO !

Doodle Your Future welcomes support from inspired organisations that share our vision of using educational theatre, art, reading, writing and positivity practice to help orphaned and vulnerable children thrive. Each year, we work closely with committed corporate partners who help Doodle Your Future reach and engage with children in need. Let us write your company's good news storybook, or donate to a creative programme or other areas of need which align with your values.

WHY ?

It is estimated that there are 3.9 million orphaned children in South Africa with nearly half having lost their parents to AIDS-related diseases. The further exploitation of these children, coupled with poor socio-economic environments and stress, leads to cognitive, social and emotional problems. At the age of 18, these children are expected to be self-sufficient adults despite their lack of a stable background that fosters the life skills needed for success.
